

## DXB Bench Dispenser

The bench mounted version of the DX unit results in a highly versatile and economic dispensing system. The two components are fed by gravity from refillable containers or by low pressure transfer pumps from bulk containers into pressure assisted component containers. The DXB Bench Dispenser is vertically and horizontally adjustable and can be tilted to suit individual dispensing requirements.

Specifications: Ratio capability is 1:1, 1.5:1, 2:1, 4:1, and 10:1  
Air pressure 70 psi  
Plastic and stainless steel wetted components  
Maximum shot size 50 cc  
Mechanical shot size control
